MST-02

Soft start for halogen lamps

Index: MST-02

MST-02 is used to reduce the starting current of halogen lamps. This prevents excessive use of connected lamps, resulting in prolonging their life.

Mounting on a flat surface.

FUNCTIONING

DESCRIPTION

Functioning:

At the moment of switching on the power supply, the controller does not allow immediate switching on of lighting to full power. Initially, the lamp system is powered by an internal thermistor limiting the current. After 1sec. the system switches on permanently contact, through which it transmits the full load of the receivers.

ATTENTION!

No effect of gradual illumination of lamps.

TECHNICAL DATA

Rated permanent current Iu	8 A
Short-circuit current limiter	No
Mounting method	Other
Max. apparent power	2000 VA
Conditioned rated short-circuit current Iq	0 kA
